Senator Todd Pillion  
Senator Frank Ruff  
Senator Bill Stanley  
Senator David Suetterlein  
Senator Jill Vogel

# VAWEST

BUSINESS & LEGISLATIVE COALITION

# 2022 LEGISLATIVE AGENDA

## ECONOMIC DEVELOPMENT & REGIONALISM

VA West is strongly committed to results-oriented programs that attract investment in technology infrastructure, enhance regional economic development planning and workforce training, and promote cooperative city and county efforts to maintain or attract job growth to the Piedmont, Southside, Southwestern, Shenandoah Valley, and Western Virginia. **VA WEST SUPPORTS:**

- A strategic plan for additional Virginia Telecommunications Initiative (VATI) funding for public-private partnerships to expand affordable broadband and telecommunication services in unserved areas to support economic development, telework, telemedicine, and tele-education access necessary for a modern workforce
- Funding for economic development programs available through the Virginia Economic Development Partnership and GO Virginia
- Tax reform measures to strengthen and defend Virginia's business climate.
- Comprehensive audit of the Virginia Employment Commission to:
  - Ensure timely responsiveness and customer service to both job seekers and employers
  - Evaluate how best to assist unemployed Virginians while encouraging those who are able to return to work to do so
- Expanded incentives for angel and venture capital investments in Virginia businesses and increased funding to commercialize regional research spinoff and startup businesses
- Protection of Virginia's existing Right-to-Work laws so that employees are not compelled to pay union dues as a condition of employment
- Investment in job training, education, and in-demand skills as means to higher earning potential
- Reducing the disparate impact that minimum wage increases have on small businesses--especially in retail and hospitality--by encouraging and sharing innovative wage and benefit models that exist across the state for employees
- Ensuring that the Tobacco Commission remains able to serve its mission by providing funding for economic development opportunities in the original tobacco region footprint
  - The continued safe development of cost effective, traditional and renewable energy sources to meet business needs

## TRANSPORTATION

Transportation is a core service of government that is critical for economic development and facilitating the efficient delivery of goods and services. The Commonwealth must remain pro-active in meeting the challenge of growing demand on its aging infrastructure. **VA WEST SUPPORTS** a coordinated strategic transportation plan, to include:

- Expansion of Amtrak passenger rail from Lynchburg to Bedford and continued exploration of expansion to Bristol
- Continued efforts toward timely implementation of the I-81 Corridor Improvement Plan (CIP)
- Reconsideration of a regional intermodal freight facility
- Continued funding and additional VDOT SMART SCALE weighting to meet transportation needs in our VA West communities
- Initiatives to expand air service at regional airports in our VA West communities.
- Construction of Interstate 73

## WORKFORCE DEVELOPMENT & EDUCATION

VA West recognizes the vital importance of maintaining and developing new and innovative workforce and job development programs to enhance and attract human capital. **VA WEST SUPPORTS:**

- Increased FastForward funding and funding for childcare/early childhood education
- Initiatives that strengthen connections among students, parents, educators, and guidance counselors of career and technical education (CTE) opportunities and regionally in-demand careers
- Efforts to improve coordination between Virginia's employers, job training programs, and education communities to meet industry, workforce, and student needs
- Funding for regional career and technical education communities
- Emphasis on science, technology, engineering, math and health (STEM-H) courses in K-12 and Virginia's colleges and universities, in addition to coursework in areas of business and economics to encourage the next generation of small business owners
- Responsible and safe implementation of recreational marijuana regulations, that includes "lessons learned" from other states and how to mitigate corresponding implications for the business community

## HEALTHCARE

VA West remains concerned about the uncertainty surrounding the implementation of the Patient Protection and Affordable Care Act (PPACA) and its impact on Virginia's business community. VA West believes steps must be taken to limit the shifting of uncompensated care onto the business community and other unsubsidized users of Virginia's hospitals and health care providers.

**VA WEST SUPPORTS:**

- Legislation that allows the creation of Multiple Employer Welfare Arrangements (MEWAs) which offer health plans to support health care affordability and accessibility for employers and employees
- Initiatives and additional resources to address the future of mental and behavioral health treatment in the Commonwealth

## PUBLIC HEALTH EMERGENCIES

**VA WEST SUPPORTS:**

- Legal liability protections for businesses who follow health protocols
- Incentivizing domestic manufacture of critical medical equipment and pharmaceuticals to prevent future supply chain disruptions
- Continued recognition of regional differences as they relate to potential outbreaks and strategies to mitigate viral spread
- Alignment of emergency declarations from the state and federal governments with streamlined and consistent directives to ensure consistent, clear, and fair rules that business owners and employees are able to follow without jeopardizing their businesses
